Empirical Labs, established in 1989, is a progressive nutraceutical manufacturer in the USA. Our growth continues due to our reputation for high quality products and great service.

About 10 years ago we started developing proprietary liposomal technology. This was born from forward thinking on ways to deliver nutrients in bioavailable form. Empirical Labs' unique liposomal technology and innovative formulas have positioned as industry leaders.

Big News

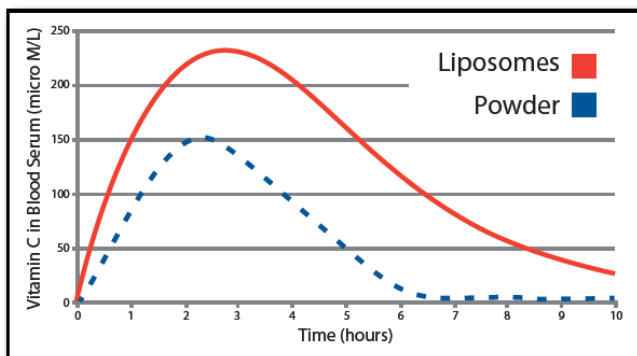

During 2015, we have worked with Dr. Kenneth Proefrock, NMD to create the next generation of liposomes, which we refer to as the Qualisome™ line. Dr Proefrock is respected as an educator, leading edge clinician and biochemist. We are grateful to be working with Dr. Proefrock, as his experience with making stable liposomes reaches clear back to 2006 when he was making them for professional use, well before we sold our first vitamin C in 2009! Qualisome™ technology is 100% owned by Empirical Labs.

- We verify our product to ensure it actually works. This is due to the particle size, structure, and integrity of our true liposomes.
- We use a unique and proprietary liposome manufacturing process. Avoiding high heat and pressure preserves the liposome and its payload, increasing total effectiveness.
- We are the original manufacturer, not a distributor like many others.
- We use only non-hydrogenated, non-hydroxylated phosphatidylcholine.
- Our liposomes are free flowing true liquid liposomes and are not emulsions (gel or paste consistency).
- All our liposomes test negative for soy and GMO's.

Liposomal Delivery Study

Blood serum levels of vitamin C as a function of time after the subjects ingested a single 5 g dose of vitamin C.

The plot above represents blood serum levels of vitamin C as a function of time after the subjects ingested a single 5 g dose of vitamin C. The dotted line reflects ingestion of powdered sodium ascorbate vs. the solid line, reflecting ingestion of Empirical Labs Liposomal Vitamin C. Note that the concentration maximum, area under the curve, and residence time in the blood are significantly greater in the liposomal form of sodium ascorbate. (No claims implied.)

Liposomal Price List & Layout

Formula	Retail	
Liposomal B12 Methylfolate (6 btl min)	\$24.00	Real Phosphatidylcholine w/ B12/MTHF
Liposomal CoQ10	\$49.00	Increased uptake Liposomal CoQ10. Proven delivery!
Liposomal Curcumin/Resveratrol (6 bottle min) 6oz	\$40.00	Curcumin & Resveratrol in a Structured Delivery
Liposomal DHA (6 bottle minimum)	\$35.90	Vegan DHA, Non GMO, Liposomal Delivery
Liposomal Vitamin C (6 bottle minimum) 5oz	\$40.00	Real Phosphatidylcholine w/ Liposomal C
Liposomal Glutathione (6 bottle minimum) 4oz	\$59.99	Real Phosphatidylcholine w/ Glutathione
Phospholipid Complex 8oz	\$50.00	High quality sunflower PC Complex formula

Liposomal B12/Methylfolate 2oz

Directions: 1 Milliliter Daily (About 20 Drops) Or As Directed By Your Physician. Follow With Water For Taste.

Servings Per Container: 60

Serving Size: 1 Milliliter

Folate (As L-Methylfolate)

Vitamin B12 (As Methylcobalamin)

Natural (Non-Hydrogenated) Phosphatidylcholine

Other Ingredients: Purified Water, Natural Flavors, Potassium Sorbate.

* %DV (Daily Value) Not Established

Gently Shake Before Using And Refrigerate After Opening. Tested Non GMO, Non Soy, Gluten Free

<u>Per Srv'g</u>	<u>%DV</u>
50 mg	13
500 mcg	8,333
100 mg	*

Liposomal Curcumin & Resveratrol 6oz

Directions: 6 Milliliters Daily (About One Teaspoon) Or As Directed By Your Physician. Follow With Water For Taste.

Servings Per Container: 30

Serving Size: 6 Milliliters

Curcuminoids

Resveratrol

Ingredients: Phosphatidylcholine (From Non-GMO Sunflower Oil)-Glycerine Complex, Non-GMO Oleic Acid.

Other Ingredients: Purified Water, Natural Flavors, Potassium Sorbate.

* %DV (Daily Value) Not Established

Refrigerate After Opening.

Use within 45 Days of opening. Tested Non GMO, Non Soy, Gluten Free

<u>Per Srv'g</u>	<u>%DV</u>
200 mg	*
75 mg	*

Liposomal CoQ10 6oz

Directions: 6 Milliliters Daily (About One Teaspoon) Or As Directed By Your Physician. Follow With Water For Taste.

Servings Per Container: 30

Serving Size: 6 Milliliters

CoQ10 (as ubiquinone)

Phosphatidylcholine (From Non-GMO Sunflower Oil)-Glycerin Complex, Non-GMO Oleic Acid.

Other Ingredients: Purified Water, Natural Flavors, Tapioca starch, Ribose, Polysaccharides, Potassium Sorbate.

* %DV (Daily Value) Not Established Some People May Prefer To Take Dose In Water Or Juice.

Refrigerate After Opening. Use within 45 Days of opening. Tested Non GMO, Non Soy, Gluten Free

<u>Per Srv'g</u>	<u>%DV</u>
200 mg	*
500 mg	*

Liposomal Vitamin C 5oz

Directions: 5 Milliliters Daily (Just Under One Teaspoon) Or As Directed By Your Physician. Follow With Water For Taste.

Servings Per Container: 30

Serving Size: 5 Milliliters

Vitamin C (As Sodium Ascorbate)

Sodium (As Sodium Ascorbate)

Natural (Non-Hydrogenated) Phosphatidylcholine

Other Ingredients: Purified Water, Natural Flavors, Potassium Sorbate.

* %DV (Daily Value) Not Established

Some People May Prefer To Take Dose In Water Or Juice.

Refrigerate After Opening. Use within 45 Days of opening. Tested Non GMO, Non Soy, Gluten Free

400 mg	*

Liposomal Glutathione 4oz

Directions: 4 Milliliters Daily (Just Under One Teaspoon) Or As Directed By Your Physician.

Many people find mixing into a cranberry or pomegranate juice a palatable way to ingest Liposomal Glutathione.

Follow With Water For Taste.

Servings Per Container: 30

Serving Size: 4 Milliliters

Glutathione

All Natural Non-Hydrogenated Phosphatidylcholine

Other Ingredients: Purified Water, Natural Flavors, Potassium Sorbate.

* %DV (Daily Value) Not Established

Refrigerate Before And After Opening.

Use within 45 Days of opening. Tested Non GMO

<u>Per Srv'g</u>	<u>%DV</u>
